Project Manager/Manager of Communications

Patients Canada

📅 March 2016 - December 2020

📍 Toronto, ON

- Responsible for all communications and oversaw the re-development of website, including implementing front and back-end features.

Manager of Client Services

Grosso McCarthy Inc.

📅 March 2016 - December 2020

📍 Toronto, ON

- Trained and directed the communications team and developed client proposals leading to the acquisition of new clients for the firm.

PROFESSIONAL PROJECTS

Daniel's E-Commerce

React JS, MongoDB, Express, Node JS, Redux Toolkit, Tailwind CSS

📅 December 2022 - January 2023

- A full-stack MERN E-Commerce Web Application that uses Tailwind CSS & Material UI libraries and Redux toolkit for state management.
- Created back-end JSON REST API to create and fetch user/product data.
- includes Stripe API to handle user payments.
- Live Site: <https://dans-e-commerce.up.railway.app/>
- Github: <https://github.com/DanielMcIntyre2022/FINAL-MERN-E-Comm-Portfolio-Web-App>

Socialite

ReactJS, Node JS, Firebase

📅 August 2022 - September 2022

- Event planning app built in the front-end with React and Firebase/Node in the back-end.
- Users can create and share their events with friends and family.
- Live Site: <https://soicalite.netlify.app/>
- Github: <https://github.com/DanielMcIntyre2022/Social-Lite-Application>

Video Diary

React JS, Rest APIs, Firebase, CSS

📅 March 2022 - April 2022

- An application built in React, Video Diary uses Google's YouTube API and fetches and displays the current global videos from YouTube and allows users to search for videos based on keywords.
- Utilizing Firebase, users can also save the searched videos and view later or delete from the page.
- Live Site: <https://video-diary.netlify.app/>
- Github: <https://github.com/DanielMcIntyre2022/Video-Diary-App>
